

Noise Compatibility Planning (the Part 150 Plan)

- **Purpose – to maintain compatibility between area land uses and noise generated by airport use**
- **Study components**
 - Identify current noise levels and conflicts
 - Project future noise levels and potential conflicts
 - Evaluate abatement and mitigation actions to increase or maintain compatibility between the airport and surrounding sensitive land uses
 - Recommend best practices as an action plan for community implementation
- **First steps – measurement and modeling of current conditions**
