Subject: Re: Status of Airport project

Ms. Davis:

The FAA has reviewed your comments and included them in the EIS public
comment file. We will consider and respond to the comments in the Draft
Environmental Impact Statement (EIS).

The next meeting for the EIS has not been set. However, if you signed in
at our last workshop you will receive a postcard. Additionally, the meeting
date will be posted on the project website at www.Airportsites.net/CMH-EIS.

Please let me know if you need any additional information.

Katherine Jones

Subject: Status of Airport project

To Whom It May Concern:

Could you send me the currant status on your project at Port Columbus?

When is the next meeting for the public going to be held? My concerns that
I sent and gave to your representative at the last meeting were never
addressed.

Thank you.

Sincerely,

Sandra Davis

Subject: Re: South Corridor at Airport

Ms. Davis:

Could you please be more clear about your request?

If the questions are related to the Part 150 noise study, I suggest you
contact the Mr. Dave Wall at the Port Columbus International Airport. He
can be reached at 614-239-4063 or dwall@columbusairports.com.

Please let me know if you have additional questions.

Thanks,
Katy Jones

Subject: South Corridor at Airport

Hello,

I am a bit confused. I understood them to say at the meeting this Spring
that they were seeking the right of way to fly south over these homes near
the Airport. What right of way are you seeking to fly over if they are
already flying south over the houses?

Thank you.

Sincerely,

Sandra Davis

Dear Miss Jones:

Thank you for your response out of your busy day. I really appreciate it.

Sincerely,

Sandra Davis

Ms. Davis:

Thank you for your email. The FAA is still in the process of gathering information and completing our environmental analysis on the proposed project at the Airport. The FAA has not made any decisions on the project. We are still in the analysis phase.

Any decisions on potential acquisition or relocation will be coordinated with the property owner and/or residents of the property and will be in accordance with the Federal Relocation Act,. Residents would not be left to their own resources to relocate or find suitable and comparable housing.

We realize that people have many things going on in their lives and we want to provide as much information as possible but also want to make sure that we provide you with complete and accurate information.

Currently, we are planning on having another public information workshop in the spring. You will receive a postcard announcing the meeting.

Please feel free to continue to contact me via email or phone if you have additional questions.

Thanks,
Katy Jones

Subject: Status of Airport project

Hello Ms. Jones:

My name is Sandra Davis and I have spoken to you before. I was wondering if there is any further information that I can look up on the computer: unless, you have it.

I am not one to deal with unknowns very well and this house and property

are my mother's safety net: because, she lost my father in January and she is suffering from Stage 5 Alzheimer's Disease and any changes seem to upset her safety zone and make her worse. It is not helping my nerves much--not knowing what to expect either.

You have been very kind in the past answering my questions and I was wondering if you knew anymore information.

I have noticed that the Airport has been buying property further north on Cassady and wondered how that worked into the scope of things.

I really don't think it is fair to tell us at the last minute that we have to up and move and this is what is bothering me anyway. Because, I don't know whether to upgrade what needs fixed (ie: blacktop drive way, porches, and paint what needs painting, etc.) I have already put new roofs on the garage and house, all new gutters on the house and garage and aluminum siding on the house: since, August of this year. But, I feel that I am in the dark as far as any further maintenance work and I don't know what to do.

If the Airport is going to buy these places: I don't want to go to the expense of repairs and heavy maintenance in case we have to move. Can you give us any inkling, please?

Hope that your day is a good one.

Thank you.

Sincerely,

Sandra Davis

P. S. The pictures that you had taken awhile back of these houses will not reflect the work that I have recently done: since, July and August and September.
