

# *Sponsor's Proposed Project*

## **Environmental Impact Statement**

- Construction of a replacement runway, 10,113 feet long, located approximately 702 feet south of the existing Runway 10R/28L
- Construction of additional taxiways to support the replacement runway
- Proposed terminal development (defined as a development area that will encompass Phase I of the CRAA terminal development program and the number of gates, approximate square footage of the structure, number of levels and if any are underground, approximate curb frontage, and the number of passengers that the terminal would accommodate)
- Site selection, purchase, installation, and flight check of all necessary NAVAIDS and lighting to support the proposed development
- Ancillary development to include aircraft fueling system expansion, construction of central utility plant, airside-landside drainage system, and expansion of glycol storage facilities
- Associated roadway relocations and construction including relocation of Airport Perimeter Road and Stelzer Road
- Parking improvements (including both surface lots and parking garage)
- Property acquisition and relocation of residences, businesses, and farms as necessary; including 36 parcels (35 homes) located on 13th Avenue in City of Columbus
- Implementation of necessary air traffic control procedures to support the proposed development
- Implementation of Proposed Noise Abatement and associated land use mitigation measures proposed in this EIS and the updated Noise Compatibility Plan
- Construction of a new stormwater detention basin on the east airfield, south of Sawyer Road
